

unit_Model_removeFlow

unit_Model_removeSystem

Model::remove

```
graph LR; A[unit_Model_removeFlow] --> C[Model::remove]; B[unit_Model_removeSystem] --> C;
```

The diagram illustrates a mapping from two unit functions to a common model function. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'unit_Model_removeFlow' and the bottom box contains 'unit_Model_removeSystem'. On the right, there is a gray rectangular box with a black border containing the text 'Model::remove'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both unit functions call or delegate to the 'Model::remove' function.
